PROFESSIONAL SUMMARY

Full Stack Developer & AI/ML Engineer with hands-on experience building practical web applications, AI-driven automation systems, and local LLM integrations. Proficient across Python, JavaScript/TypeScript, React.js, FastAPI, Node.js, MERN stack, and local AI agent workflows using Ollama. Specialized in end-to-end software architecture — from responsive frontend dashboard delivery to high-throughput REST APIs, database schema design, and automated workflow pipelines.

TECHNICAL SKILLS

Languages:	Python | JavaScript | TypeScript | Java | C / C++ | SQL | HTML5 | CSS3
Backend:	FastAPI | Node.js | Express.js | Flask | RESTful APIs | Microservices | JWT | OAuth2
Frontend:	React.js | Angular | Redux | RxJS | HTML5 | CSS3 | Bootstrap | Tailwind CSS
AI / ML & Agents:	Machine Learning | Deep Learning | NLP | TensorFlow | PyTorch | OpenCV | Ollama | LLM Integration
Databases:	MongoDB | MySQL | SQLite | PostgreSQL | SQLAlchemy | NoSQL
DevOps & Cloud:	Git | GitHub | Docker | AWS Basics | CI/CD Pipelines | Google Cloud APIs (Gmail, Drive, Sheets)
Tools & Practices:	Postman | Vite | npm | REST APIs | System Design | Agile/Scrum | SDLC | OOP

EXPERIENCE

Whitecode Technologies / Whitecode AI | *OJT / AI Software Engineering Intern* *July 2026 – Present*
Pune, MH

- Architected and developed an **AI Mail Agent** leveraging **FastAPI**, **React.js**, and **Ollama local LLMs** — automating email ingestion, summarization, and response generation, cutting manual triage time by **65%**.
- Built custom agent automation scripts using **OpenClaw wrappers** and integrated **Google APIs (Gmail, Sheets, Drive)** to construct zero-leakage enterprise document processing pipelines.
- Designed high-throughput **FastAPI** server endpoints for async task routing, improving payload response speed by **35%**.

Esbee Company | *Quality Line Operator* *Jul 2023 – Apr 2024*
Pune, MH

- Conducted quality inspections and recorded defect data across assembly lines to maintain product compliance and optimize yield.

Delta Fire Company | *Maintenance Technician* *Jan 2022 – Jun 2022*
Pune, MH

- Maintained service logs and inspection data for fire safety systems using preventive maintenance checklists and fault diagnosis.

PROJECTS

AI Mail Agent *Python | FastAPI | React | Ollama | Local LLMs | Google APIs* *GitHub Link*

- Engineered an offline-capable AI mail assistant parsing email streams and generating context-aware responses with **Ollama LLMs**.
- Integrated **Google APIs (Gmail, Sheets, Drive)** for zero-data-leakage triage and automated spreadsheet logging.

MK27 Gym Management System *MongoDB | Express.js | React | Node.js | JWT | bcrypt* *Live Demo | GitHub Link*

- Built a full-stack MERN application for managing member subscriptions, billing ledgers, joining dates, and automated member status.
- Implemented secure user authentication with **JWT** and **bcrypt**, enforcing role-based access control and cutting query response time by **40%**.

Spam Detection System *Python | Flask | Scikit-learn | NLP | TF-IDF | Naive Bayes* *GitHub Link*

- Built an ML-based web application to classify SMS messages as spam/ham using **Naive Bayes classification** with **TF-IDF vectorization**, achieving **~97% accuracy**.

QR-Based Hyperlocal Store Platform (QR Store) *Python | Flask | SQLite | SQLAlchemy | JavaScript | React* *GitHub Link*

- Developed a QR-based digital storefront platform for local shopkeepers featuring seller dashboards and real-time order management.

Guest Lecture & Visitor Management System *Node.js | React | MySQL | Express.js* *GitHub Link*

- Built a digital system to track visitor entries, schedule guest lectures, store speaker profiles, and archive feedback logs.

EDUCATION

Ratan Tata Maharashtra State Skills University (RTMSSU), Pune *2024 – Present (Pursuing)*
B.Tech in Computer Technology | CGPA: 5.9 *Pune, Maharashtra, India*

Zeal Polytechnic College, Pune *2020 – 2023*
MSBTE (Computer Engineering) | 72.97% *Pune, MH*
Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Web Technologies, OOP, Software Engineering.

CERTIFICATIONS & ACCOLADES

- **Artificial Intelligence** — Information Technology Specialist | Certiport *(Feb 28, 2025)*
- **Code Without Barriers: Ethical AI Practice** — Microsoft *(Feb/Mar 2025)*
- **Deep Learning with Certification** *(Nov 12, 2025)*
- **Whitecode AI Recognition:** Developed production-grade AI agent prototypes selected for live deployment at Whitecode AI.
- **Languages Known:** English, Hindi, Marathi
