PROFESSIONAL SUMMARY

Aspiring AI & Full Stack Developer with hands-on experience in Python, Machine Learning, NLP, Flask, React.js, FastAPI, SQL, and AI-powered web applications. Built real-world projects including a Spam Detection System (~97% accuracy), AI Mail Agent, and QR-Based Hyperlocal Store Platform. Passionate about Machine Learning, agent automation, and solving business problems through intelligent software solutions.

TECHNICAL SKILLS

Programming: Python | JavaScript | Java | C / C++ | SQL | HTML5 | CSS3
Machine Learning & AI: Scikit-learn | NLP | TF-IDF | Naive Bayes | Deep Learning | TensorFlow | Ollama | LLM Integration
Web & Frameworks: Flask | React.js | FastAPI | Node.js | Express.js | RESTful APIs | Bootstrap
Databases: MySQL | SQLite | SQLAlchemy | MongoDB
Tools & DevOps: Git | GitHub | Postman | Vite | npm | Google APIs (Gmail, Sheets API, Drive API)

PROJECTS

- 1. Spam Detection System** *Python | Flask | Scikit-learn | NLP | TF-IDF | Naive Bayes* [GitHub Link](#)
 - Built an ML-based web application to classify SMS messages as spam/ham using **Naive Bayes** classification.
 - Applied **TF-IDF vectorization** and NLP preprocessing routines, achieving **~97% accuracy**.
- 2. QR-Based Hyperlocal Store Platform (QR Store)** *Python | Flask | SQLite | SQLAlchemy | JavaScript | React* [GitHub Link](#)
 - Developed a QR-based digital storefront platform for local shopkeepers to display product listings digitally.
 - Implemented seller dashboard with real-time order management and mobile purchase cart lookups.
- 3. AI Mail Agent** *Python | FastAPI | React | Ollama | Local LLMs | Google APIs* [GitHub Link](#)
 - Engineered an AI mail assistant leveraging **FastAPI** and **Ollama local LLMs** for email parsing, summarization, and draft generation.
 - Integrated **Google APIs (Gmail, Sheets, Drive)** for automated document workflows, cutting manual triage time by **65%**.
- 4. Guest Lecture & Visitor Management System** *Node.js | React | MySQL | Express.js* [GitHub Link](#)
 - Built a digital system to track visitor entries, schedule guest lectures, store speaker profiles, and archive feedback logs.

WORK EXPERIENCE

- Whitecode Technologies / Whitecode AI** | *OJT / AI Software Engineering Intern* *Pune, MH* July 2026 – Present
 - Configured AI/ML applications and local LLM model interactions utilizing **Ollama** offline tools.
 - Built agent automation workflows with **OpenClaw wrappers** and **FastAPI** servers for task routing and API automation.
- Esbee Company** | *Quality Line Operator* *Pune, MH* Jul 2023 – Apr 2024
 - Conducted quality inspections and recorded defect data to identify recurring process issues and report improvements.
- Delta Fire Company** | *Maintenance Technician* *Pune, MH* Jan 2022 – Jun 2022
 - Maintained service logs and inspection data for fire safety systems using preventive maintenance checklists.

EDUCATION

- Ratan Tata Maharashtra State Skills University (RTMSSU), Pune** 2024 – Present (Pursuing)

B.Tech in Computer Technology | CGPA: 5.9
- Zeal Polytechnic College, Pune** 2020 – 2023

MSBTE (Computer Engineering) | 72.97%
- Gangangiri School, Pune** 2019 – 2020

SSC | 75.00%

CERTIFICATIONS & LANGUAGES

- Artificial Intelligence** — Information Technology Specialist | Certiport (*Feb 28, 2025*)
 - Code Without Barriers: Ethical AI Practice** — Microsoft (*Feb/Mar 2025*)
 - Deep Learning with Certification** (*Nov 12, 2025*)
- Languages Known:**
 - English, Hindi, Marathi
