PROFESSIONAL SUMMARY

AI & Full Stack Developer with hands-on expertise building production web applications, local LLM integrations, and AI agent automation systems. Proficient across Python, JavaScript/TypeScript, React.js, FastAPI, Node.js, and Model Context Protocol (MCP) architectures with Ollama. Proven track record delivering end-to-end solutions — from citizen assistance platforms and offline email agent workflows to full-stack MERN dashboards and automated spreadsheet synchronization pipelines.

TECHNICAL SKILLS

Languages:	Python, JavaScript, TypeScript, Java, C / C++, SQL, HTML5, CSS3
AI / ML & Agents:	Local LLMs (Ollama), Model Context Protocol (MCP), Claude APIs, Scikit-learn, NLP, TF-IDF, Naive Bayes, Deep Learning, TensorFlow, Vector Search
Backend:	FastAPI, Node.js, Express.js, Flask, RESTful APIs, Microservices, JWT, OAuth2
Frontend:	React.js, Vite, Tailwind CSS, Bootstrap, Responsive UI/UX, State Management
Databases:	MongoDB, MySQL, SQLite, PostgreSQL, SQLAlchemy
DevOps & Tools:	Git, GitHub, Docker, Google Cloud APIs (Gmail, Sheets, Drive), Postman, Webhooks, CI/CD Basics

EXPERIENCE

Whitecode Technologies / Whitecode AI | *OJT / AI Software Engineering Intern* *July 2026 – Present*
Pune, MH

- Architected and deployed an **AI Mail Agent** using **FastAPI**, **React.js**, and **Ollama local LLMs** — automating email parsing, summarization, and draft generation to cut manual triage time by **65%**.
- Built custom agent automation scripts integrating **Google Cloud APIs (Gmail, Sheets, Drive)** for zero-data-leakage document processing pipelines.
- Designed high-performance asynchronous **FastAPI** endpoints, accelerating API response and payload delivery times by **35%**.

Esbee Company | *Quality Line Operator* *Jul 2023 – Apr 2024*
Pune, MH

- Conducted precision inspections and recorded defect data across assembly lines to ensure product compliance, reducing defect spillover.

Delta Fire Company | *Maintenance Technician* *Jan 2022 – Jun 2022*
Pune, MH

- Maintained service logs and diagnostic checklists for industrial fire safety systems, achieving zero unplanned operational downtime.

PROJECTS

MahaSeva AI *FastAPI | React.js | Python | Vector Search | Ollama* *Live Demo | GitHub*

- Developed an AI-driven citizen assistance platform for discovering verified Maharashtra government welfare schemes, criteria, and official services with instant multilingual semantic guidance.

GarbaSaathi Pune *React.js | Vite | Tailwind CSS | Node.js* *Live Demo | GitHub*

- Created a vibrant community festival web application for Garba & Dandiya dancers across Pune, featuring interactive event discovery, group circle matching, and mobile-first UX.

MK27 Gym Management System *MongoDB | Express.js | React | Node.js | JWT | bcrypt* *Live Demo | GitHub*

- Built a full-stack MERN portal managing member subscriptions, billing ledgers, and automated status; enforced role-based JWT auth and cut query response time by **40%**.

QR-Based Hyperlocal Store Platform *Python | Flask | SQLite | SQLAlchemy | React* *Live Demo | GitHub*

- Developed a QR-based digital storefront for local shopkeepers featuring live product catalogs, merchant dashboards, and real-time order tracking.

Task Sheet Automation *Python | FastAPI | Google Sheets API | Webhooks | Task Queues* *GitHub*

- Architected an automated two-way workflow synchronization engine between internal database records and Google Sheets via webhooks and background workers.

Guest Lecture & Visitor Management *React | Node.js | MySQL | Express.js* *Live Demo | GitHub*

- Built an academic portal for logging campus visitor entries, scheduling guest lectures, managing speaker profiles, and archiving feedback records.

Spam Detection System *Python | Flask | Scikit-learn | NLP | TF-IDF | Naive Bayes* *GitHub*

- Implemented an ML classification web app for SMS messages using TF-IDF vectorization and Naive Bayes, achieving **~97% classification accuracy**.

AI Mail Agent *Python | FastAPI | React | Ollama | Local LLMs | Google APIs* *GitHub*

- Engineered an offline-capable AI mail assistant parsing email streams, auto-summarizing messages, and generating contextual draft replies with **Ollama local LLMs** and zero-leakage Google API integration.

EDUCATION

Ratan Tata Maharashtra State Skills University (RTMSSU), Pune *2024 – Present (Pursuing)*
B.Tech in Computer Technology | CGPA: 5.9 *Pune, Maharashtra, India*

Zeal Polytechnic College, Pune *2020 – 2023*
MSBTE (Computer Engineering) | 72.97% *Pune, MH*
Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Web Technologies, Object-Oriented Programming, Software Engineering.

CERTIFICATIONS & ACCOLADES

- **Anthropic:** Claude 101: Foundation Certification | Model Context Protocol (MCP) Certification
- **Certiport (Pearson VUE):** Information Technology Specialist — Artificial Intelligence
- **Microsoft:** Code; Without Barriers — Ethical AI Practice & Cloud Certification
- **Google Career Certificates:** Google AI Fundamentals
- **Deep Learning Specialization:** Deep Learning with Certification
- **National Innovation Showcase:** Ideation & Innovation Program
