SURAJ DANTARAO

B.Tech in Computer Technology

Pune, Maharashtra, India | +91 8767753086 | surajdantrao0777@gmail.com | https://linkedin.com/in/suraj-dantarao-b1b28b374 | https://github.com/surajdantarao

CAREER OBJECTIVE

Full Stack & AI/ML Developer pursuing B.Tech in Computer Technology at RTMSSU with hands-on expertise building production web applications, multi-tenant institutional audit platforms, and local LLM agent workflows. Proficient across Python, JavaScript, TypeScript, React 19, NestJS, FastAPI, Prisma, MySQL, and Model Context Protocol (MCP) architectures. Seeking to leverage full-stack engineering and machine learning skills to build scalable software solutions that drive operational efficiency.

EDUCATION

Ratan Tata Maharashtra State Skills University (RTMSSU) — **Pune, Maharashtra**
B.Tech in Computer Technology — **2024 - 2027 (Pursuing) | CGPA - 5.9**

Zeal Polytechnic College — **Pune, Maharashtra**
MSBTE (Diploma in Computer Engineering) — **2020 - 2023 | Percentage - 72.97%**

Gagangiri School — **Pune, Maharashtra**
SSC (Secondary School Certificate) — **2019 - 2020 | Percentage - 75.00%**

WORK EXPERIENCE/INTERNSHIP

Whitecode Technologies / Whitecode AI — **Pune, Maharashtra**
Job Role: Software Engineering Intern — *July 2026 – Present*

- Built ClustorAudit, a full-stack institutional accreditation & audit platform (React 19, NestJS, Prisma, MySQL/MariaDB) for IQAC Cluster across 4 roles (Admin, Auditor, Institute, Coordinator), cutting audit turnaround by 60%.
- Automated scoring rubrics, evidence validation, and dynamic PDF reports, reaching 98%+ compliance accuracy and optimizing REST APIs to reduce query latencies by 45%.
- Architected an AI Mail Agent using FastAPI, React.js, and Ollama local LLMs for offline email triage, summarization, and Google API integrations, reducing manual processing by 65%.

Esbee Company — **Pune, Maharashtra**
Job Role: Quality Line Operator — *July 2023 – April 2024*

- Conducted precision quality inspections and recorded defect data across assembly lines to maintain product compliance and zero defect spillover.
- Identified recurring quality issues and reported actionable process improvements to optimize delivery.

Delta Fire Company — **Pune, Maharashtra**
Job Role: Maintenance Technician — *January 2022 – June 2022*

- Maintained service logs and diagnostic checklists for industrial fire safety systems, achieving zero unplanned operational downtime.

PROJECTS

MahaSeva AI — Lead Developer — GitHub Link | Live Demo Link
Technology Stack: Python | FastAPI | React.js | Ollama | Vector Search | NLP

- Developed an AI-driven citizen welfare scheme discovery platform with multilingual semantic search and verified Maharashtra government links.
- Implemented semantic vector matching with local LLMs to accurately match citizen demographics with relevant government welfare schemes.
- Delivered sub-second recommendation responses with verified direct application links for Maharashtra citizens.

MK27 Gym Management System — Full Stack Developer — GitHub Link | Live Demo Link
Technology Stack: MongoDB | Express.js | React.js | Node.js | JWT | bcrypt

- Built a full-stack MERN web application for managing gym member lifecycle, plan subscriptions, billing ledgers, and membership status tracking.
- Implemented secure user authentication and authorization using JWT and bcrypt, enforcing role-based access control across admin and member portals.
- Designed RESTful API endpoints and optimized MongoDB aggregation pipelines, cutting financial record query response time by 40%.

AI Mail Agent — AI Developer GitHub Link

Technology Stack: Python | FastAPI | React.js | Ollama | Local LLMs | Google APIs

- Engineered an offline-capable email triage assistant parsing email streams, auto-summarizing messages, and generating contextual draft replies.
- Integrated Google Workspace APIs (Gmail, Sheets, Drive) with local Ollama models ensuring zero data leakage and 100% private data processing.
- Streamlined inbound inbox processing, decreasing routine email management time by 65%.

GarbaSaathi Pune — Frontend Developer GitHub Link | Live Demo Link

Technology Stack: React.js | Vite | Tailwind CSS | Node.js

- Created a responsive festival community platform for Garba dancers across Pune with interactive event discovery and circle matching.
- Implemented real-time group formation and location-based venue directories optimized for high-traffic mobile users.

SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, SQL, HTML5, CSS3

Frameworks and Libraries: React 19, React.js, NestJS, FastAPI, Express.js, Node.js, Flask, Tailwind CSS, Bootstrap, Prisma ORM

Databases: MySQL, MariaDB, PostgreSQL, MongoDB, SQLite, SQLAlchemy

DevOps Framework: Docker, Git, GitHub Actions, CI/CD Basics, Postman, Webhooks

Tools & Platform: VS Code, Linux, Ollama, Model Context Protocol (MCP), Vite, Google Cloud APIs

Cloud Framework: Google Cloud Platform (Gmail API, Sheets API, Drive API), Vercel, Render

Soft Skills: Problem Solving, Team Collaboration, Technical Documentation, Critical Thinking, Adaptability

Spoken Languages: English, Hindi, Marathi

CERTIFICATIONS

Claude 101: Foundation Certification - LLM & Generative AI via Anthropic, Sep 2026. Credential ID: ANTH-CLAUDE101

Model Context Protocol (MCP) - AI Agent Architecture via Anthropic, Sep 2026. Credential ID: ANTH-MCP-2026

IT Specialist: Artificial Intelligence - Artificial Intelligence via Certiport (Pearson VUE), Jul 2025.Credential ID: CERTI-AI-2025

Code; Without Barriers - Ethical AI Practice & Cloud via Microsoft, Jul 2025. Credential ID: MSFT-CWB-2025

Google AI Fundamentals - Artificial Intelligence via Google Career Certificates, Aug 2026.Credential ID: GOOG-AI-2026

Deep Learning with Certification - Deep Learning via Deep Learning Specialization, Nov 2025.Credential ID: DL-SPEC-2025

EXTRA CURRICULAR ACTIVITIES

Open-Source Contributor - Developed and maintained open-source developer tooling and AI agent workflows.2025 - 2026

Technical Workshops & Hackathons - Participated in university-level technical ideation events and AI seminars.2024 - 2026

ACHIEVEMENTS

National Innovation Showcase (Ideation & Innovation Program) - Recognized for technical ideation and AI project presentation. 2026

IQAC Cluster ClustorAudit Deployment - Engineered multi-tenant institutional accreditation platform adopted by educational institutions. 2026
